Summary Statement: This resolution is proposed to amend the scope for the City Hall capital improvement project account that was originally used to provide funding for remodeling and renovation of City Hall on an as needed basis to accommodate adjustments in staffing, safety improvements, and improvements that extend the life of the building.

Much of the remodeling and renovation has been completed in-house that has provided a savings to the city and funding is available within the account to supply furnishings as needed, such as new chairs for the council chamber. The council chamber is currently being renovated using funds from this account and the administration is proposing to purchase new chairs for the council chamber from this account if the scope is amended. Once the council chamber renovation is complete, there is expected to be a balance of approximately \$20,000 for other renovations and the purchase of chairs and other equipment.

The attached specifications show potential chairs being considered for the council chamber. The cost estimate is approximately \$8,000 to purchase 60 new stackable chairs for audience seating and 14 new chairs for the council table and seating for department heads.

STAFF RECOMMENDATION: Adopt Resolution Serial No. 15-03.
