RE: (See attached Table 1 for
referenced case(s))

FINAL DETERMINATION

Table 1 - Letter Referenced Case(s)

Table with 7 columns: ASN, Prior ASN, Location, Latitude (NAD83), Longitude (NAD83), AGL (Feet), AMSL (Feet). Row 1: 2017-AAL-111-NRA, (blank), WASILLA, AK, 61-34-19.15N, 149-32-22.40W, 0, 354

Description: Airport Layout Plan for Wasilla Airport (IYS)

The Federal Aviation Administration (FAA) conditionally approves your Airport Layout Plan (ALP) for WASILLA, dated 10/03/2017. This approval is subject to the condition that the proposed airport development listed below requires environmental processing and may not be undertaken without the FAA's prior written environmental approval:

No proposed development has received environmental clearance from the FAA. Prior to initiation of any development the proponent must seek FAA environmental review and clearance.

The ALP received a favorable airspace determination and is subject to the conditions described in the airspace determination letter 2017-AAL-111-NRA, dated 10/03/2017. Although future structures on or near the airport may be in conformance with the ALP, this determination does not extend to them. Therefore, all future structures will be subject to the notice provisions of Title 14 Code of Federal Regulations (CFR) Part 77, Objects Affecting Navigable Airspace.

We find the proposed airport development shown on the ALP acceptable from the standpoint of safety, efficiency and utility.

Our approval does not represent a commitment to provide federal financial assistance to implement any development or air navigation facilities shown on the plan, nor does it mean

that we find funding of the proposed airport development justified.

We look forward to working with you in the continued development of your airport. If you have any questions, please contact Mike Edelman at (907) 271-5026, e-mail: Mike.Edelman@faa.gov.

A handwritten signature in black ink, appearing to read 'KW', with a long horizontal flourish extending to the right.
