**City of Wasilla
Resolution Serial No. 21-35**

A Resolution Of The Wasilla City Council Authorizing The Purchase And Award Of Contracts For Information Technology Equipment And Services In An Amount Not To Exceed \$200,000 From CARES Act Funds To Enhance Emergency Protocols That Support A Mobile Workforce.

WHEREAS, through Resolution Serial No. 20-24 and Ordinance Serial No. 20-28, the City of Wasilla (City) accepted \$18,690,897.67 for Coronavirus relief funds through the Alaska Department of Commerce, Community, and Economic Development for costs that are for necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19); and

WHEREAS, the City remains diligent in its COVID-19 mitigation and resiliency efforts and the City's Information Technology Department is requesting an not to exceed amount of \$200,000 in CARES Act funding in support of upgrading and enhancing its IT infrastructure to support an agile and mobile workforce during this pandemic or any emergency that may face the City; and

WHEREAS, the Wasilla City Council authorizes an award to contract with World Wide Technology, estimated at \$99,662; Bridge Data Solutions, estimated at \$56,428, both with purchasing agreements as allowed per WMC 5.08.100, sole source procurement.

NOW, THEREFORE, BE IT RESOLVED, that the Wasilla City Council authorizes the purchase of information technology services and equipment, and directs administration to award the necessary contracts to enhance emergency protocols that support a mobile workforce using CARES Act funding in an amount not to exceed \$200,000.

Source of Funds.

110-4181-499-45-18 City Resiliency and Recovery \$200,000

Effective Date. This resolution takes effect upon adoption.

ADOPTED by the Wasilla City Council on December 27, 2021.

Glenda D. Ledford, Mayor

ATTEST:

Jamie Newman, MMC, City Clerk

Bridge Data Solutions Quote (2 pages)

Summary Statement: The COVID-19 pandemic has caused a significant shift in the way a large segment of the workforce operates. Currently, the City's mitigation protocols allow some employees to work from home on City issued laptop computers, printers, and scanners.

Through the adoption of Resolution Serial No. 21-25, Administration is proposing to streamline the work from home process by upgrading the City's IT infrastructure to allow authorized employees who are working from home to utilize their personal computers for City work purposes. The upgrade will provide robust security enhancements to the City's computer network to ensure the network is not vulnerable because of employees using personal equipment to access the network.

Further explanation can be found within the IT memorandum provided by Steve Stewart, IT Manager.

Proposed Action: Adopt Resolution Serial No. 21-35.

City of Wasilla
Information Technology Department
290 E Hering Avenue

December 16, 2021

Dear Mayor Ledford and City Council Members:

First, I would like to introduce myself, I am Steve Stewart, IT Manager for the City of Wasilla. From the many duties of my position, one specific purpose of my position is to modernize and secure the IT infrastructure at the City of Wasilla (COW). As part of this modernization project, is the ability to have an agile and mobile workforce. COVID 19 or any other pandemic or emergency that may come about, the ability to be mobile and secure is paramount. COW should be ready to respond to any emergencies in the future by providing the ability for employees to work from almost anywhere with an internet connection. This project will allow the connection to the COW network without a need for a COW Laptop or VPN connection and a steppingstone to more mobility and modernization.

I am requesting an amount not to exceed \$200,000 from CARES Act monies to start this project. What this initial purchase will allow is the quicker more streamlined work from home (WFH) approach with enhanced security and reliability. This will create an infrastructure that can then be used to slowly increase the city's ability to be mobile with an eventual migration to more cloud-based services.

The details are as follows.

VMware Server farm environment to host VMware Horizon Virtual Desktop Instance and virtualized Servers to support VDI and increase the mobility of COW IT staff, by virtualizing servers it can be managed remotely. IT Staff will have the ability to spin up servers needed to support WFH efforts without the need to procure a physical device.

Netapp Storage Arrays. These storage appliances will store all the user data, virtual desktops, and server data. Another storage array will be installed at a remote site for disaster recovery scenarios and serve as the backup location of user's virtual desktops and user data.

Cisco Nexus switches, to interconnect server farm and storage array.

This project will take some time to be fully operational. Lead times on IT equipment are months out.

For Cares Act Funding, we need to procure this by December 31, 2021, and this project will need to be completed as soon as possible, with a deadline of September 30, 2022, with all funds paid.

Thank you,

Steve Stewart
City of Wasilla
IT Manager

This quote is WWT Confidential Information.

Seller provides all products and original manufacturer services to Buyer only in accordance with any applicable original manufacturer terms and conditions within the applicable end user license agreement, terms of service, or similar legal instrument.

Unless expressly stated herein, price quotes are valid for 30 days and are subject to change thereafter.

Due to recent trade tensions between the US and China, increasing tariffs have been levied on goods manufactured in each country that are imported into the other. As a result, prices quoted are subject to adjustment for changes in the tariff rates.

Unless expressly stated herein, prices do not include, and Buyer is responsible for, any and all taxes, handling, shipping, transportation, duties or other charges or fees relating to the sale and delivery of products.

Products may only be returned in accordance with the original manufacturer's RMA policy.

Items returned after 30 days of receipt may not be returnable due to vendor restrictions.

All delivery dates are approximate and not guaranteed.

Products will be shipped in accordance with FCA WWT's shipping point (Incoterms 2010), unless otherwise stated herein or agreed to by both parties in writing in a contract. Title and risk of loss will transfer to Buyer at WWT's shipping point.

Payment terms are net 30, unless otherwise agreed to by both parties in writing.

All products and services are provided to Buyer in accordance with Seller's terms of sale at <https://www.wwt.com/TermsAndConditions/TermsAndConditions.doc> ; provided that, if Buyer has a master agreement in place with WWT, the master agreement will apply in lieu thereof.

State Fees include Electronic Waste Fees specific to each state that fund recycling programs for Electronic Waste such as computers, monitors, televisions, audio equipment, printers, and other electronic devices as required by law. CA charges an Electronic Waste Fee for Monitor disposal.

As you may be aware, global supply chains across all industries are facing uncertain impacts from the Coronavirus. WWT is monitoring the situation closely and is in constant contact with our suppliers and partners so that quoted lead times are as accurate as possible. Due to the quickly evolving nature of this situation, please be advised that it is possible that quoted lead times and delivery dates may change with little or no notice. WWT will continue to work with customers and suppliers/partners to evaluate options to minimize any impact.

Within the 30 day quote validity period WWT reserves the right to revise the quote due to exchange rate fluctuations.
