Sewer Tank Replacements

310-4359-435.45-02

\$240,000

**Attachments:** Ordinance Serial No. 23-36 (1 page)

**Summary Statement:** This ordinance is proposed to amend the fiscal year 2023 budget by appropriating \$240,000 from the sewer fund, fund balance to replace an 11,000-gallon septic tank system servicing businesses in the Cottonwood Creek Mall.

The requested appropriation is estimated to fund replacement of the 11,000-gallon septic tank, replacement of 150 feet of sewer line extension, and removal of 7,000 square feet of pavement removal followed by repatching. Due to the size of this project, an invitation to bid (ITB) will be released for the scope of work noted.

The City typically budgets approximately \$100,000 annually which generally allows for replacement of residential tanks throughout the year. Commercial tank replacements involve a much larger scope of work and are appropriated/budgeted when the issue becomes known. The Public Works department is in the process of the developing a septic tank inventory list and replacement schedule.

**Proposed Action:** Introduce and set the Ordinance for public hearing.
