Attachments: Surplus List (2 pages)

SUMMARY STATEMENT: Cummins Northwest recently made available a surplus list of rental generators available for sale with a wide variety of sizes. The Sports Center was designated for a 350kw emergency generator that was never funded. The Sports Center currently has a 100kw emergency generator that runs the lighting and heating systems. The Sports Center needs a second generator to fully utilize the building as an emergency shelter in the event of a man made or natural disaster.

This is a sole source purchase in accordance with WMC 5.08.140 for a used piece of equipment with low hours with an expected savings of \$15,000 to \$20,000 from that of a new generator set. This purchase is being made with State grant funding.

STAFF RECOMMENDATION: Contract Award to Cummins Northwest in the amount of \$90,000 for a surplus 400kw Emergency Generator to be used at the Curtis D. Menard Sports Center in the event the sports center needs to be used as an emergency shelter.
