

WASILLA PARKS AND RECREATION COMMISSION
THE CITY OF WASILLA

RESOLUTION CONCERNING THE WASILLA COMMUNITY PLAYGROUND PROJECT

Whereas the City of Wasilla has few recreational facilities for cross-generational use and enjoyment;

Whereas the greater Wasilla community will become stronger and more cohesive by uniting around a common goal;

Whereas Wasilla's Community Palyground Project offers an opportunity to enhance personal and community pride by accomplishing a large and impressive project;

Whereas demonstrating to the children of Wasilla our desire for health and well-being is a powerful boost to their self-esteem;

Whereas all residents and visitors of the greater Wasilla area can experience an enhanced quality of life by the presence of a community built playground; and

Whereas having a playground in Wasilla can foster economic benefits for the city through increased property values, commercial investment, etc;

Therefore be it resolved that the Wasilla Parks and Recreation Commission endorses the concept of a community built playground financed, designed and built primarily through private funding sources; and

Be it further resolved that the Wasilla Parks and Recreation Commission recognizes the Wasilla Community Playground Project is consistent with the overall development plan for the Old Airport Site.

Approved by majority vote of the Wasilla Parks and Recreation Commission on 1 November 1994.

RONALD C. RUCKER
CHAIRPERSON
