**Attachments:** None

**Summary Statement:** The Public Works Department is seeking funding to purchase a replacement asphalt melter applicator. This is a trailer mounted piece of equipment used to melt asphalt for the purpose of sealing cracks in pavement. Crack sealing is a vital technique to maximize the life of pavement for roads and airport surfaces. The existing melter applicator is 10 years old and has a failed heating tub that is beyond repair. The State of Alaska equipment fleet contract has a melter applicator available through April 30, 2013 for \$35,000. The price of this piece of equipment is expected to go up after April 30, 2013. The Public Works Department is seeking to make this purchase prior to the end of the State contract.

**Recommended Action:** Adopt Ordinance Serial No. 13-03.
