Summary Statement: The budget for this purchase was set last year at \$10,000 based on pricing at the time. Current pricing is between \$11,500 and \$12,500 for a new 1,000 gallon diesel fuel tank. The ordinance will increase the budget from \$10,000 to \$13,000 to purchase the fuel tank. The new fuel tank will increase fueling efficiency by providing bulk fuel at the airport, where the equipment is currently fueled up with a 100 gallon pickup mounted tank. This tank will also provide emergency fuel storage for the City's back-up generators.

Recommended Action: Adopt Ordinance Serial No. 13-25.
