**City Of Wasilla  
Ordinance Serial No. 14-12**

**An ordinance of the Wasilla City Council adopting Wasilla Municipal Code, Chapter 9.28 Illicit Synthetic Drugs, prohibiting drugs such as "Spice", "K2", and "Bath Salts"; and providing for a minor offense penalty.**

---

**WHEREAS**, herbal and/or chemical mixtures are being marketed and sold in the City of Wasilla which are not necessarily controlled by federal or state law but which are designed and marketed to mimic the effects of controlled substances, as detailed in this ordinance; and

**WHEREAS**, the Wasilla Police Chief has advised that the Wasilla Police Department (WPD) is concerned that the proliferation and availability of these substances presents a threat to public safety, and police officers' attempts to address the provision and marketing of these products through application of current state and municipal laws is inefficient and usually ineffective. The WPD has verified the availability of a significant number of these products in the city. WPD supports the adoption of an ordinance that would allow its officers to identify prohibited products through examination of the packaging and/or statements made at the point of sale or seizure; and

**WHEREAS**, because the illicit synthetic drugs are an immediate and ever-present threat to the public safety and to the health of young people in particular, and are causing psychological and physical affects to users, this ordinance is deemed to be an emergency measure and shall become effective immediately in order to protect the public health and safety.

**Section 1. Classification.** This ordinance is of a general and permanent nature and shall become part of the city code.

**9.28.020 Purpose.**

The purpose of this chapter is to regulate the availability of products which are enhanced with synthetic chemicals, which chemicals mimic the effects of controlled substances on users, because these products are a danger to the public health, safety and welfare.

**9.28.030 Prohibition of illicit synthetic drugs.**

A) It is unlawful for any person to possess, use, provide, sell, produce, manufacture, or distribute, or to offer, display, market, or advertise for sale, any illicit synthetic drug.

B) In determining whether a product is prohibited by this chapter, statements on package labeling such as “not for human consumption” may be disregarded when other relevant factors (viewed alone or in totality) indicate that the product is intended to be consumed or ingested by humans or is a product regulated by this chapter. Other relevant factors that may be used to determine whether a product or sale is prohibited by this chapter include, but are not limited to: verbal or written representations at the point of sale or seizure regarding the purpose, methods, use, or effect of the product; aspects of the packaging or labeling suggesting that the user will achieve a “high,” euphoria, relaxation, mood enhancement, or that the product has other effects on the body; the cost of the product is disproportionately higher than other products marketed for the same use; the product contains a warning label stating or suggesting that the product is in compliance with state or federal laws regulating controlled substances; the product’s name or packaging uses images or slang referencing an illicit street drug; illicit or underground methods of sale or delivery are employed by the seller or provider; or the product resembles an illicit street drug such as cocaine, methamphetamine, LSD, or marijuana.

**9.28.040 Sale of certain products for human consumption prohibited.**

It is unlawful for any person to provide, sell, or offer for sale a product for human consumption when the product is labeled “not for human consumption” or contains similar warnings.

**9.28.050 Defense.**

It shall be a defense to the prosecution of a violation of this chapter that a product is specifically accepted by, or regulated within and in compliance with, state or federal law. For the purposes of this chapter, it shall not be a defense that a product is not subject to regulation unless the product is specifically exempt from regulation; mere “non-regulation” by these acts without a specific regulatory exemption does not render a product exempt under this chapter.

**9.28.060 Violations, penalties and seizure.**

A) Remedies and penalties for violations of this chapter are as provided in Chapter 1.20

B) Each product, package, tube, vial or container possessed, used, provided, sold, produced, manufacturer, distributed, or offered, displayed, marketed, or advertised for sale shall be a separate minor offense.

C) Any products found in violation of this chapter may be seized and held as evidence to be used in any future proceeding and may be disposed of as appropriate after their use for evidentiary purposes is no longer required, including in accordance with Chapter 5.40.

**Section 3. Amendment of subsection.** WMC 1.20.030(C) Disposition of scheduled offenses – Fine schedule, in the General Penalty section, is hereby amended to add the following fine to the schedule, as follows:
