CITY COUNCIL INFORMATIONAL MEMORANDUM

IM No. 14-15: LID feasibility study for a water main extension at Lucus Road as part of the Parks Highway Improvements.

Originator: Public Works Director

Date: July 16, 2014

Agenda of: July 28, 2014

Route to:	Department Head	Signature	Date
X	Public Works Director	<i>[Signature]</i>	7/16/14
X	Finance Director	<i>[Signature]</i>	7/17/14
X	Deputy Administrator	<i>[Signature]</i>	7-17-14
X	City Clerk	<i>K. Smith</i>	7.17.14

Reviewed by Mayor Verne E. Rupright: *[Signature]*

Attachments: ADOT Correspondence (2 pages)

Summary Statement: The owner of Farina’s Restaurant Supply company made an inquiry with the City and ADOT in May with respect to the possibility of extending the City water system to their property. The administration followed up with a preliminary design and confirmed that an 8-inch water line could be extended from Lucus Road to Farina’s property and benefit other properties in the area.

ADOT provided an order of magnitude estimate from the contractor working the Parks Highway project in the amount of \$60,000. This work is eligible for an LID and the project is feasible. ADOT is currently confirming if the work can be done this year as part of the Parks Highway project. If ADOT agrees the work can be done as part of the project, then an ordinance would come forward for City Council approval to establish a Limited Improvement District for this water line extension.

Subject: 8 inch DIP Extension 205 LF
Attachments: back of the napkin.pdf

If I'm looking at the plans correct: extend from existing 12-in DIP reduce to 8-in DIP and extend 165 LF with tee and cap, and extend 40 LF onto property with a bend and cap with a 1-inch service line key box along Farina's property line.

Thanks

FYI, here is an order of magnitude estimate from QAP. Let me know if you want to continue to pursue this work. Have a good one.
